Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Thursday 20 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry and bright start, rain later.

Today:
Dry with sunshine for most areas this morning, quickly turning cloudy as a band of rain pushes in from the west by midday. The rain will be heavy at times, particularly in the west of the region, with strong winds. Maximum temperature 13 deg C (55 deg F).

Tonight:
The poor weather will continue overnight with widespread rain becoming slightly lighter by dawn. Winds will ease for a brief spell overnight and it will feel milder than previous nights. Minimum temperature 8 deg C (46 deg F).

Friday:
Light rain continues across the region this morning, but a few drier brighter spells are possible during the afternoon, most likely along the coast. Heavy rain showers returning overnight. Maximum temperature 12 deg C (54 deg F).

Outlook for Saturday to Monday:
Sunny for many on Saturday with intermittent showers. Fine on Sunday, but a band of heavy rain and strong winds sweeps eastwards later. Monday showery, strong winds near the coast.
